

Dear FCC,

I feel our democracy is being threatened by the overt abuse of power by Sinclair Media. I believe the American people want to make choices that lead everyone away from unnecessary painful consequences; however, awareness of the facts is often distorted to intentionally persuade. Such Machiavellian tactics insult my intelligence and offend my values. Our Founding Fathers would never approve of such an abuse of the "common trust". The airwaves are public and Sinclair profits financially. I say stop the propaganda immediately. Yellow journalism betrays my trust. Sinclair is jaundiced.
